EDITO

Eurial news

N°4 - June 2011

Already one year of existence for Eurial News.

A quarterly opportunity to inform you about current Eurial news:

new products, shows, successes, to familiarize yourself with our products, our brands, provide you with recipe ideas, etc.

Before the summer season, which awakens new desires, here are a few ideas on how to use our IQF products, to be consumed without moderation!

With Best Regards,

Elodie Le Pironnec
Aera sales Manager

The Eurial IQF range, source of creativity !

A forerunner in IQF technology applied to cheese, Eurial is using its expertise to serve tradition and offer you a large range of cheeses (goat's, soft or hard cheese, blue and speciality cheeses) in all different forms (slices, cubes, balls, crumbles).

EASY TO USE – ECONOMICAL – TASTE AND TEXTURE ARE PRESERVED WHEN USED HOT AND COLD

Here is our selection of products for this summer :

Slice of blue cheese 21g :
fondant texture and flavour for your unique creations (salads, sandwiches)

IQF

Goat's cheese or mozzarella balls
a fun, innovative format for new cooking ideas!

IQF

IQF

Slices of goat's cheese :
A classic that can be revisited again and again, ideal for all your dishes (pizzas, tarts, gratins, salads, etc.)

To discover more products, visit our website <http://en.eurial-international.com>
Don't hesitate to contact us for samples.

IQF

Stamp-sized raclette cheese :
for the flavour and the format that makes it easy to use in original ways

NEWS-EXPRESS

Objective : USA

COUTURIER North America, our US subsidiary, is quickening the pace to develop our presence on the American market and will be participating in 2 shows this summer: the IDDBA in California from 5 to 7 June and the Fancy Food Show in Washington from 10 to 13 July.

NEWS-EXPRESS

DID YOU KNOW ? A few figures

The Eurial group: 5,000 milk producers, 920 million litres of processed milk (including 160 million litres of goat's milk), 1,700 employees, 11 production sites in France and abroad, 6 subsidiaries : Belgium, Spain, Germany, USA, United Kingdom and Poland and 23% of its turnover in exports.

Proud of our milk!
